**Activity**

Name of Activity: State Strategic Plan for Crown Land  
 Our Reference:: SSP Crown Land

**Please provide your details**

1. First name: [Redacted]  
 2. Last name: [Redacted]  
 3. Do you identify as Aboriginal or Torres Strait Islander?: [Redacted]

4. Are you completing this survey as part of an organisation?: No

5. Organisation: [Redacted]  
 6. Postal/street address: [Redacted]  
 7. Suburb: [Redacted]  
 8. State: [Redacted]  
 9. Postcode: [Redacted]  
 10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales, Other

Other: I am aware of the importance of crown land in protecting and conserving environmental values

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other: Protection of water quality, protection of soil, scenic landscape qualities

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Protection of environmental values is of key importance. In order to effectively protect environmental values, comprehensive understanding of these values is needed. Much information is likely to be available on these values in the form of fauna and flora studies, bush walking guides, information on location of rare species etc. All other priorities for crown land should be consistent with protection of ecological and environmental values and resilience in the face of climate change. Aboriginal custodianship of land should also be a key priority.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism:

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Additional outcomes needed: Climate change resilience and environmental outcomes, including identification and protection of biodiversity, connectivity, water and air quality, soil and landscape and control of invasive weed species, should be a priority before all other outcomes. A key part of action on climate change should be to retain and enhance existing native vegetation and to plan for carbon sequestration through extensive revegetation and tree planting. This should be for the purpose of drawing

down carbon already in the atmosphere, not as a mechanism for enabling further carbon emissions. An important environmental outcome should be to retain intact the Travelling Stock Routes and Reserves network of NSW in public ownership as a public asset, and provide funding to ensure that it is appropriately and sustainably managed for its environmental, economic, cultural (both Aboriginal and European) and social benefits to NSW and Australia. The outcome of Use Crown land to expand access to affordable housing is of great concern as it can be used as a wedge to alienate public open space. Yes affordable housing is important but not at the risk of alienating public space. Crown lands should not be privatised or sold or excessively commercialised. State Forests should be a part of this strategy and should be retained in public ownership. Public access through walking tracks enhanced by restoration of degraded areas is highly desirable. Green space projects that lead to land clearing, overuse and environmental degradation should not be permitted. Facilitation of new sustainable energy, resources and infrastructure projects is of great importance in the face of climate change arising from burning of fossil fuels, but it is of concern if this means further land clearing and alienation of public land. It is certainly far preferable to the use of public land for coal mining or coal seam gas extraction, but careful assessment is needed of appropriate sites. More information is needed. Custodianship for first nations people should be enabled in the strategy.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Neutral

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

The reference to reducing red tape should be deleted in the document. Regulation can be an important tool to enable protection of Crown Land values. It is important to keep in place regulations that enable protection of these values, The regulatory process can be streamlined but certainly should not be dispensed with for the purpose of enabling greater economic exploitation. The goal of simplifying licencing for waterfront structures sounds like it is aimed at enabling greater alienation of public land for private and exclusive use. This should not be a focus of the strategy. The words unlock land usually originate from strong corporate influence calling for unrestricted access to commercial values of publicly owned land. Corporate focus calling for privatisation and exploitation of publicly owned land should not be enabled through this strategic plan. Investment on crown land or conversion of crown land to playing fields should not be permitted where this conflicts with the protection of environmental values.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

The strategic plan does not deal with fundamental issues around identification of key environmental values and biodiversity protection. Financial allocation and investment for protection and restoration of degraded sites should be enabled by the strategy. The need to act to reduce greenhouse gas emissions and reduce risks arising from climate change is urgent and deserves much more specific attention in the strategy. Land clearing on crown land such as State Forests for the purpose of extracting fossil fuels exacerbates climate change and should be prohibited.

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Not at all important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: People need green space to ride horses, pushbikes and to walk and run for mental health.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Not at all important
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Of minor importance
Facilitate investment on Crown land:	Not at all important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Neutral
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	
Explore co-management of land to generate mutual benefits:	Very important
Collaborate with Aboriginal groups in each place to improve outcomes:	Not at all important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Green space for people to ride horses, pushbikes and to walk and run and picnic. DO NOT sell for housing.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Very important

Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	More areas for horse riding, walking and running. Do not sell the land for affordable housing.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Keep the fire trails open please. Please allow more areas for people to ride horses and pushbikes and to go camping. A dedicated 4WD area open to the public would be good so people can use and use that area and have their fun and not destroy other fire trails used for bush fire vehicles.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The draft plan fails to specify the weight given to different priorities. CL should be retained in public ownership, subject to environmental protection and not subject to any use that restricts public access & enjoyment. There is no guarantee that CL currently managed for environmental purposes/bio diversity will not be used for commercial purposes in the future. There needs to be a statement that this is an overriding priority. Some of the stated priorities are incompatible. Private investment for profit on CL is not acceptable.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

So many of these outcomes and the description of them are so broad as to be meaningless. Hence my "neutral" response to many

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Neutral

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

I can only comment on the area I know about - volunteer Crown land managers. Of course we would welcome improved resources, particularly financial resources, but nowhere is there specific information on how this will be achieved. P43 section on using CL with high environmental values to generate offset credits which could be a source of ongoing funding holds some promise. But there is no description of how this might come about. Anything that would release voluntary land managers from the time consuming process of writing applications for annual competitive funding rounds would be welcome! But this "strategic plan" provides no strategy. Just lots of broad, motherhood, jargonistic statements.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Too many meaningless statements. e.g. p28 on "the vision". The first two paragraphs and then point 1 is nonsensically jargonistic, and not at all "strategic". The different "priorities" are potentially conflicting. Most significantly there is no certainty that CL currently used for biodiversity/conservation will remain. It might suddenly be deemed suitable for a wind farm, or affordable housing; and so this draft plan gives no comfort to hard working land managers that there is ongoing commitment to support their existing purpose. In fact, the implication of the draft plan is that almost any parcel of CL could be used for commercial purposes.

20. Where did you hear about the State Strategic Plan?:

Correspondence from the department

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Not at all important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Need to differentiate between management of urban crown land and rural/regional crown land as different use outcomes. Many rural/regional Crown Land leases need to be put back and managed by private farmers. Rural crown land that has been removed from farmer management has been let go and not managed by the Government who have allowed weeds, vermin to overtake the natural habitat and allowed undergrowth to become a serious bush fire danger (now proven).

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales  
Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy  
Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

the focus of this government has always been on "jobs Nd growth", and that has to stop. Yes, hire more rangers if needed, but don't make that a core part of your strategy unless it's actually needful.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing:

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Keep industry out of the Green. They have enough of the planet to destroy.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

I am involved with a community or volunteer group that uses or maintains Crown land facilities

Other:

12. What use/s of Crown land do you value?:

Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Yes. Protecting & enhancing biodiversity conservation & landscape connectivity for wildlife corridors.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Provide managed wildlife refuges as alternate places to support wildlife during bushfire crisis. Measurable improvements to the status of threatened flora & fauna. Protect & enhance ecological function of bushland & riparian areas. Establish large scale wildlife corridors & conservation connectivity throughout the regions to mitigate against climate impacts.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Of minor importance
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Identify & map areas of high biodiversity value & potential to improve biodiversity outcomes. Work with the community, volunteers & landholders & provide incentives to enable positive outcomes for the environment & biodiversity.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I care about Crown land management as a resident of New South Wales, Other  
Other: I am a Crown Lands Neighbour

12. What use/s of Crown land do you value?: Open or green space, Aboriginal land rights, Biodiversity  
Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Neutral

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Priorities should include working with neighbouring land managers, organisation and private landholders for the benefit of all. Holistic management of an area, rather than simply Crown Lands.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects:

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Neutral

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Reasonable fees for Crown Lands neighbours who are working with them to achieve common goals.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Reasonable fees for Crown Land neighbours who are working with them to achieve common goals.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Licence fees need to be assessed and levelled on a case by case basis. A private landholder who is applying for a licence to traverse Crown Lands to access private property, when there are no public roads available, should not have to pay a fee similar to a wharf or other general uses.

20. Where did you hear about the State Strategic Plan?: Print media

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Biodiversity, Jobs and economic growth

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there could be a lot more promotion and use of Crown Lands in NSW, there should be a lot more hut-based walking trails similar to Tasmania. I have done a lot of walking in a lot of National Parks, in Myall Lakes

there any new priorities, you would like to suggest?:

national Park you could promote a "Myall Lakes Walk" which could go from Bungwahl to Hawks Nest, it would use existing campsites at Neranie, Shelly Beach and Mungo Brush but huts could be added to it and it could be promoted and managed as a single walk with some improvements such as creating a track beside the road. In Brisbane Water national Park there could be much better camping grounds with toilets at Tommos campsite and Tank Creek and also better campgrounds with toilets on the Great North Walk. This would get a lot of people travelling to these areas and bringing jobs to the locals.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Keep well vegetated crown lands as public property and protect them or give all of them back to the first nation people the crown stole them from. Do not allow these special places to be developed.

Biodiversity will be critical for human survival eventually. These places will help with that.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Not at all important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Give it all back to the first nations people as they will look after it better than the crown has, for the benefit of biodiversity.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Of minor importance

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Of minor importance

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Protect biodiversity on all public land better than has been done for the last decade! Give it to the people the crown stole it from as they will look after it better for the future generations.

20. Where did you hear about the State Strategic Plan?: Other

Other: A friend told me. The people responsible for telling me in government didn't want me to know about it. That is a poor result of deliberate processes.

3. Do you identify as Aboriginal or Torres Strait Islander?: [Redacted]

4. Are you completing this survey as part of an organisation?: No

5. Organisation: [Redacted]  
6. Postal/street address: [Redacted]  
7. Suburb: [Redacted]  
8. State: [Redacted]  
9. Postcode: [Redacted]  
10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I think the priority to enable economic growth commercial opportunities Etc can impede or become the sole focus where commercial interests are given more weight than the other significant priorities that have benefits for the broader community, Don't sell crown land with public access to developers who lock up the use of these open spaces.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I agree with these strategic directions.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	No

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Keep public access, maintain environment and support Aboriginal people to get be part of this process if on their 'country'
---	---

20. Where did you hear about the State Strategic Plan?:	Social media, Print media

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, Other

Other: Use for mountain biking, single track  
12. What use/s of Crown land do you value?: Community use, Other  
Other: Mountain biking, single track,

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Under sustainability and green space, this should include mountain biking activities, which create minimal impact to the environment.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Neutral
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Neutral
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Neutral
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Mountain biking single track achieves multiple sustainability and green space use outcomes.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Mountain biking

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Mostly good, just clearer on decimationa of activities in the green space. Mountain biking tracks are a low impact way of opening up green space.

20. Where did you hear about the State Strategic Plan?:

Social media

Other:

**Privacy & confidentiality**

- 6. Postal/street address:
- 7. Suburb:
- 8. State:
- 9. Postcode:
- 10. Email:

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Of minor importance

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Ensure all user groups are involved in any decision making processes. Ensure all recreational uses of crown land are protected

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Of minor importance

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I dont want crown land to be locked away from recreational user groups because of broad and vague aboriginal land issues. An example is the gross mishandling of rock climbing in the Grampians by Parks Victoria.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Important
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Neutral
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	I think you should really be looking to increase and legalise current mountain bike trails. The evidence is there from places like derby in Tasmania that this increases land use and doesn't damage land when built properly. It also brings in cash to land users/managers

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important

I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Of minor importance

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:

Very important

Work with Aboriginal communities to realise the potential of their land rights:

Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

These priorities suggest that economic growth is not compatible with sustainable lifestyles and community engagement. This is not a correct binary.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Very important

I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Not at all important

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:

Very important

Work with Aboriginal communities to realise the potential of their land rights:

Not at all important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: stop trying to hide the fact you are working towards agenda 2030. Leave crown land alone. Stop selling off and overdeveloping land due to trying to pay back overseas debt

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Not at all important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Not at all important

Strengthen and uphold compliance to ensure a fair go: Not at all important

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Not at all important

Explore co-management of land to generate mutual benefits: Not at all important

Collaborate with Aboriginal groups in each place to improve outcomes: Not at all important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: stop trying to pretend that you have community at heart Stop selling off and over developing

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Of minor importance

Build understanding of native title: Not at all important

Engage and support a new generation of Crown land managers: Not at all important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: we all know Corporation of Australia will do whatever they are ordered to do by UN regardless what the people want.

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Personal Submission I am a resident of the NSW Central Tablelands, and wish to offer the following comments regarding the management of Crown Lands and this “first ever State Strategic Plan” which has been offered for public exhibition and feedback. • Firstly, I note that this Draft Plan refers back to the Crown Land Management Act 2016, which was enacted on 1 July, 2018 and amended in December, 2019. I am appalled that it has taken so long to produce just a “Draft”. • Crown Land Management has been an issue for decades, suffering on-going disruptions, political interference and lack of cohesion as Governments re-shuffle, and Government Departments responsible for land management are re-named, re-organised, fragmented and become in-effective. Since the early 1970s Crown Lands have been Consolidated, Reviewed and shared out to assorted managers. • This draft publication itself is typical of the obfuscation that is produced currently by departments lacking leadership and a realistic understanding of what they should be doing. The effort that has gone into producing a very attractively designed document, which is seriously short on facts and slow on action statements, could have been better spent. • Most importantly, there is a lack of clear definition regarding the “Crown Land” that is to be managed under this Plan. Categories of Crown Land and who is responsible for each category needs to be clearly spelled out, up front. One significant category that is not mentioned is the Travelling Stock Reserve; an ongoing concern given the constant weakening of environmental regulations. • The immediate impression to be taken from this document is that “Economics” is unfortunately at the forefront of all considerations. Not all Crown Land should be seen as just another resource to be utilised or developed, despite some “community” portions being appropriate to that consideration. This needs to be clarified. • There is a significant proportion of the Crown Land estate, quite apart from that reserved under the NPW Act, that needs to be clearly identified as set aside for environmental value. Australia’s biodiversity is already threatened by reckless land-clearing and over-development; NSW needs to improve its conservation efforts and better management of remaining Crown Lands is a vital component. Environmental issues should be given the greatest priority in all considerations in Crown Land management. • The time-line for action in this Plan needs to be re-considered. Given the impacts of climate change

especially, the State/Country does not have time to sit around talking for another 10 years. The science has been done and common sense needs to prevail; managers shouldn't be starting from scratch as though these management problems are new. • The issue of Native Title should have been resolved years ago. Working with Aboriginal communities should be encouraged; it is time to do it, not just talk about

20. Where did you hear about the State Strategic Plan?:

Social media, Print media, Other

Other:

Environmental groups

7. Suburb: [Redacted]  
8. State: [Redacted]  
9. Postcode: [Redacted]  
10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales, Other

Other: I worked with land management for 20 years and am now retired. I was a director with land management trusts, boards and authorities, mainly for the [Redacted]. I have been heavily involved with and responsible for the development of strategic management plans.

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy, Other

Other: The uses as represented are like 'silos' of interests. There are overlapping and different weights and heirarchies of values that may apply to them -- it makes rating simplistic and i would have though of little value or credibility.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Expand green space, sustainable quality of life and climate change resilience:

Strengthen and support evolving community connections:

Work with Aboriginal communities to realise the potential of their land rights:

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The Vision "to support resilient, sustainable and prosperous communities" is so broad that each element requires explanation to avoid the criticism of being just a catch-all motherhood statement. The leap to the nominated "priorities" is therefore unjustified and IT IS IMPOSSIBLE TO RATE THEM WITHOUT RISKING UNINTENDED WEIGHTING. How can the ratings be applied when the language is imprecise and often obscure? Where are the ecological values and priorities? These must be represented. What about recognising the potential and opportunities for Aboriginal custodianship? This is a critical time to show genuine willingness to move forward on acknowledging indigenous rights and drawing on indigenous knowledge.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Expand regional tourism:

Assist new sustainable energy, resources and infrastructure projects:

Facilitate investment on Crown land:

Prioritise the use of Crown land for green and open space in urban areas:

Use Crown land to expand access to affordable housing:

Support and restore environmental values on Crown land:

Manage Crown land to build resilience in a changing climate:

Sustain the places where people come together:

Partner with the organisations that serve our communities:

Strengthen and uphold compliance to ensure a fair go:

Make Aboriginal land transfers a priority – and see them as an opportunity:

Contribute to the ongoing recognition of native title rights:

Explore co-management of land to generate mutual benefits:

Collaborate with Aboriginal groups in each place to improve outcomes:

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Although many of these outcomes are individually laudible, I do not have sufficient confidence in the document to support any specific outcomes without the risk of helping to skew the public response. Some of the outcomes read like principles and it would have been a much better document if it had Principles --> leading to Targets --> leading to Priority Actions (including enablers).

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Of minor importance

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

In the absence of 'principles' and targets, it is difficult to say whether these enablers are adequate. An important missing enabler is knowledge - to manage land you must understand the land and its values and potentials.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I appreciate the difficulty of developing a single plan for such a diverse collection of places. However there is a serious gap in this strategy. There is a need to declare the PRINCIPLES that underpin and guide the strategy that lead to the establishment of the priorities. The Vision "to support resilient, sustainable and prosperous communities" is so broad that each element requires explanation to avoid the criticism of being just a catch-all motherhood statement. The leap to the "priorities" is therefore unjustified and IT IS IMPOSSIBLE TO RATE THEM WITHOUT RISKING UNINTENDED WEIGHTING. The document reads like a very "us and them" plan. If there was true up-front Aboriginal inclusiveness in the process, the language would be different. Some of the "outcomes" read like they should have been incorporated in up-front principles. Some terminology is inadequate to properly guide actions. 'Biodiversity' does not necessarily equate to 'viable ecological communities'. The Crown Lands often provide the opportunity to allow the transition of flora and fauna populations that is essential for their sustainability. I am unable to respond to the specific ratings.

20. Where did you hear about the State Strategic Plan?: Social media, Other

Other: Informed members of the community.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:  
I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, Other

Other: I am a private landholder, surrounded by Crown Land and Crown Land Road Reserves.

12. What use/s of Crown land do you value?:  
Open or green space, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Another priority is to work collaboratively with Neighbours, whether they be private landholders or organisations.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Neutral

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: There is no mention of neighbours in this document at all. Some activities being conducted on Crown Lands, with or without a licence are affecting neighbours, this includes criminal damage and environmental damage. Crown Lands are not working collaboratively with their neighbours. This is very important and should be a priority.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	In some instances it is important for Private Landholders to access their land via Crown Lands/Crown Land Road Reserves, this process is impossibly difficult and not collaborative. Crown Lands needs to work collaboratively wit their neighbours.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Crown Lands staff are remote and do not make an effort to understand a situation, which is often unique. There doesn't appear to be any common sense applied.

20. Where did you hear about the State Strategic Plan?: Social media

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

To me expanding green space and access to crown land is key, where crown land is leased or sold there should be consideration of creating community access - a bit like the UK 'right to roam' or footpaths/bridlepaths/cycleways as too much of Australia is locked up by large landholders or in environmental reserves which although important don't enable or allow access due to concerns of environmental damage. I have been a resident of NSW for many years and hope to move back again but It's disappointing to live in a state where the population has so little access.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Create a single source of truth on recreation/access opportunities on crown land - not like the state park model where you have to search park by park on where you can go. There should be opportunities for a whole range of recreational sports - many of which cannot be done on land locked up for the environment - horse riding, dog walking, biking, para gliding etc to enable people to get out and access NSW. Leasing agreements and also native title holders should be encouraged and incentivised to enable accessibility to crown land

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Access is critical - and ensuring crown land is well managed - in that I don't mean just environmentally managed but product ability managed to improve Australian land quality - we already have land locked up for (important) environmental diversity - we need to improve the quality and reduce weeds on crown land and recognise land managers and tenants who do this. Access for smaller tenants to lease land to enable small rural business and smallholders get a foothold to have a go would be also great - Eg a 5 or 10 year starter lease to allow people to get a foothold to then get their own property /land This should be low cost at the start of a lease but then increment to get people to have a plan to buy their own land - offset of course with other land leases to long term land managers but there needs to be more options for people to have a leg up to being rural

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales? I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I feel the strategy "Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW" is too broad and open to abuse and misinterpretation. In a country that allows the transfer of crown land to a private owner in the name of economic interests, especially an international interest, it is important that any land transferred privately to a non government owner, whether it be Australian or International be illegal. Any transfer or ownership should only be based on lease arrangements and for a set time. Even Aboriginal rights on land should not be sold onto International bodies (companies or countries) , but leased on a limited term. This strategy needs to be ammended before it is prioritised at all.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Very important
- Expand regional tourism: Very important
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Of minor importance
- Prioritise the use of Crown land for green and open space in urban areas: Very important
- Use Crown land to expand access to affordable housing: Important
- Support and restore environmental values on Crown land: Very important
- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Neutral
- Strengthen and uphold compliance to ensure a fair go: Very important
- Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important
- Contribute to the ongoing recognition of native title rights: Very important
- Explore co-management of land to generate mutual benefits: Important
- Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Definitely any changes that allow the loss of crown land to Australia and its control needs major change. Also "Make Aboriginal land transfers a priority – and see them as an opportunity" really depend what that means if loss of native title is involved. If it means that a company (especially an international company buys the land and gives Aboriginal citizens jobs, that would be akin to the olden days of company towns and bad consequences.

Not sure how open this outcome is to abuse. It needs more clarification. As I said before, any land transfer needs to be a lease, not for sale!

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important  
Standardise leases and licensing for common activities: Very important  
Simplify licensing for domestic waterfront structures: Not at all important  
Reduce red tape for government entities managing Crown land: Of minor importance  
Provide tools and resources to volunteer Crown land managers: Very important  
Build understanding of native title: Very important  
Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

The removal of red tape to make activities easier eg changes to vegetation and biodiversity laws in NSW has lead to abuse by landholders as well as destruction of koala habitat, especially on the mid north coast. . If red tape is holding up projects, sometimes it is because staff numbers have been cut and staff members are overworked. Again the wording is too vague and liable to be abused For example looking at: 1 Provide tools and resources to volunteer Crown land managers ..... if this was examined, I would look at what I see in NSW now, at the numbers of volunteers that actually work for the NSW government in the expectation of doing a skilled job that should be completed by paid staff, but due to staff cuts, the gaps are filled by well meaning volunteers, who are often taken advantage of. 2 If "Engage and support a new generation of Crown land managers" means create a new generation of paid Crown Land Managers, many of which trained First Nation persons that can combine native protection with modern science , I would say yes, great idea! If it means we are going to get volunteers to manage Crown Land so the government can save money, I would be appalled. More depth and explanation of the strategic plan is required

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

While the economy is important, as is the bridging of cultural approach to looking after crown land, please don't let NSW go the path of laziness where subcontracting to international companies or even Australian companies that might buy land that is later able to be sold overseas in a world's non equal playing field. All land must to own by NSW or Australian governments, unless clauses are added so that the land cannot be later sold to non Australian buyers.

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

This seems like a huge opportunity to change the way that we manage crown lands so that it can evolve into a system and structure that is truly beneficial to the community. I would love to see crown land opened up and managed to support exploding recreational activities like mountain biking that not only those who practice such activities, but also local and regional business through tourism etc. The Dungog Commons is a fantastic example of this.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Community use

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Of minor importance

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I think the public should be able to use all crown land for all recreational purposes, without fee or specific licence, it is our right to have access to this land

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Very important

Expand regional tourism:

Neutral

Assist new sustainable energy, resources and infrastructure projects:

Of minor importance

Facilitate investment on Crown land:

Of minor importance

Prioritise the use of Crown land for green and open space in urban areas:

Important

Use Crown land to expand access to affordable housing:

Of minor importance

Support and restore environmental values on Crown land:

Neutral

Manage Crown land to build resilience in a changing climate:

Not at all important

Sustain the places where people come together:

Important

Partner with the organisations that serve our communities:

Neutral

Strengthen and uphold compliance to ensure a fair go:

Important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Of minor importance

Contribute to the ongoing recognition of native title rights:

Neutral

Explore co-management of land to generate mutual benefits:

Important

Collaborate with Aboriginal groups in each place to improve outcomes:

Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Provide people with access to all crown land without fee or licence, it is our public land

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:

Neutral

Simplify licensing for domestic waterfront structures:

Important

Reduce red tape for government entities managing Crown land:

Neutral

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

[REDACTED] is an independent, self-funded, non- Government organisation of medical doctors in all Australian States and Territories. Our members work across all specialties in community, hospital and private practices. We work to prevent and address the diseases - local, national and global - caused by damage to our natural environment. We are a public health voice in the sphere of environmental health with a primary focus on the health harms from pollution and climate change. Comments on State Strategic Plan [REDACTED] welcomes the opportunity to comment on the state strategic plan for Crown lands. [REDACTED] would like to highlight some principles which should be used as a guide for future planning: 1. When there is a conflict of interest over the use of the crown land the over-riding principle should be sustainable development with activities, which protect biodiversity, reduce carbon emissions and improve the health of the population. Crown land that is managed by perpetual leases needs to be managed in a way that protects biodiversity improves any environmental degradation and aims to reduce carbon emissions from those sites. They should at least be carbon neutral in their emissions if not carbon absorbing. There should be requirements placed on the leaser to fulfil these principles. The money, which is paid by the leaser, should be used to improve the quality of the land in order to reduce the impacts on the land, thereby improving biodiversity and improving human health. 2. It is imperative that the indigenous peoples are given a mechanism whereby they can have a significant say in the way the crown land is managed. Indigenous peoples have managed the land for over 40,000 years and their knowledge of the landscape, plants and animals should be made integral to decision making, including on land for which the Indigenous peoples cannot claim Native Title. [REDACTED] would like to endorse the principle of reducing uncertainty for Indigenous people when it comes to Indigenous people securing legal right over Crown land. 3. As climate change increases its impacts on our wellbeing, it is essential that Crown land be used to improve the resilience of communities especially in those areas, which will have the greatest impacts from climate change. Improving the resilience of these communities will allow them to manage drought, floods, heatwaves and bushfires better and should be able to provide a more secure and reliable

power supply. [REDACTED] strongly endorses the plan for Crown land to support resilient, sustainable and prosperous communities. 4. [REDACTED] strongly endorses the principle of economic development, which improves the biodiversity, and resilience of our communities. The impacts of climate change are increasing, and any future development needs to do all it can to reduce the impacts of climate change. This principle has been outlined in a recent letter to the Prime Minister, Hon Scott Morrison which was signed by Australia's peak medical colleges and organisations, representing 75% of Australia's doctors, which stated : "We urge the Australian government to ensure that health remains a central focus of all aspects of the COVID-19 economic recovery and to support a healthy transition to a climate resilient economy." [REDACTED] also endorse the concept of improving transparency, so that the community can have input early in any future plans. 5 [REDACTED] welcomes any opportunity to discuss these issues further.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Other

Other: Bicycling - sealed / unsealed road, gravel, and trail

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are I think they should be ordered to reflect importance. Currently the order indicates a commitment to money above all else, and doing right by the

there any new priorities, you would like to suggest?: original custodians is the least important. Commerce as it helps strengthen the other three makes sense but to me it is ancillary not the first priority.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: The should be more specific and measurable. How do we know that we've succeeded?

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	There needs a to be a commitment to simplifying processes and accesses to enable better engagement from the Aboriginal community and leaders not make it easier for corporate and commercial activity.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	What are the specific outcomes looking to drive? i.e. increased trails to offer access to nature in a safe socially distanced way or the development of maintenance of biking trails to facilitate sustainable regional tourism instead of increasing vehicle and industrial traffic. How will the plan accommodate the constant change we experience.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: Other

Other: I'm unsure whether or not the land I use is Crown Land, I will assume it is. I like to go mountain biking in around the various places surrounding Sydney and in wider NSW.

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Jobs and economic growth, Renewable energy, Other

Other: I am respectful of Aboriginal rights including that of land however I object to other people not being allowed to use it on that basis.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: 1) Protect, sustain and promote the well being of the rural environment and the communities connected to it 2) Unlock the potential for respectful and sustainable recreational use of bush land, and economic opportunities associated with it.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Not at all important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Of minor importance

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I think creating a 2 tier society with different rights is flawed and dangerous. I think Australian Land should be for ALL Australians, and no group should be favored over any other. Indigenous rights are protected within that framework. It will be impossible to progress as a society as a whole otherwise.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Build understanding of native title:	Of minor importance
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Make recreational use of bush land more amenable, accessible and legal

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

The reason I am making a submission is because I would like to see the development of more mountain bike trails in NSW and Australia, and the legalisation and development of existing trails. Mountain biking has only positive impacts which can be seen in places such Thredbo, Stromlo in Canberra and UK, USA and Europe. A half metre wide mountain bike trail does not damage the environment, plants or animals. Trees don't need to be removed, nor animal habitats and homes destroyed. In fact, mountain biking is a great way to be in and enjoy nature, in a way that is quiet, respectful and doesn't pollute. We are the surfers of the hills. Further more, there are multiple benefits to the community. Aside from being great fun, it is an important form of exercise that gets people, men and women and kids out in nature. it can be enjoyed by anyone who can ride a bike irrespective of cultural background. It bolsters communities. It is sustainable and it actually protects the area from the kind of development that would harm the environment. It provides opportunities for sustainable economic growth such as tourism, food and retail, cafes, bike shops etc. creating jobs and businesses. Walking trails, picnic areas can also be safely added in and among the bike trails. This is fairly standard throughout New Zealand and UK, and works very well, without detriment to the environment or communities. Trails can be graded from easy to hard, and riders ride within their limits. There is very little danger or litter etc at places I've been to. There is already a huge community of mountain bikers in NSW, who are willing to help build and enjoy the use of new trails. NSW and Australia is ENORMOUS. There is plenty of room to accommodate everybody, and the landscape is amazing and rugged. Forrest covered hills and rocks is the ideal environment. I hope you will consider the development of mountain bike trails in and around Sydney and the the Blue Mountains. Particularly at Mount Narra, Manly Dam and Garigal National Park in Sydney, and Blue Mountains and Mount Keira elsewhere.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales  
Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy  
Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important  
Expand regional tourism: Very important  
Assist new sustainable energy, resources and infrastructure projects: Very important  
Facilitate investment on Crown land: Very important  
Prioritise the use of Crown land for green and open space in urban areas: Very important  
Use Crown land to expand access to affordable housing: Very important  
Support and restore environmental values on Crown land: Very important  
Manage Crown land to build resilience in a changing climate: Very important  
Sustain the places where people come together: Very important  
Partner with the organisations that serve our communities: Very important  
Strengthen and uphold compliance to ensure a fair go: Very important  
Make Aboriginal land transfers a priority – and see them as an opportunity: Very important  
Contribute to the ongoing recognition of native title rights: Very important  
Explore co-management of land to generate mutual benefits: Very important  
Collaborate with Aboriginal groups in each place to improve outcomes: Very important  
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important  
Standardise leases and licensing for common activities: Very important  
Simplify licensing for domestic waterfront structures: Very important  
Reduce red tape for government entities managing Crown land: Very important  
Provide tools and resources to volunteer Crown land managers: Very important  
Build understanding of native title: Very important  
Engage and support a new generation of Crown land managers: Very important  
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: I look forward to seeing and interacting with thoughtfully managed 'commons' in Crown Lands.

Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Review current usage and determine if crown land can provide better outcomes for the immediate and local community.
<b>Other feedback</b>	
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Review current crown land use to ensure it is providing the best community outcomes. For example a small crown land block providing direct access to The Entrance NSW beach is dominated by a fenced building for storage of Surf club vehicles and equipment. This could be a local park with access to shade and the beach. The surf club has another under utilised building that could be upgraded to store the vehicles and equipment. There is also an under utilised building at The Entrance Ocean baths that could possibly be used for storage. A community park is of greater benefit if the vehicles and equipment can be stored in the other buildings.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:  
 I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, Other

Other: I care about crown land management and I am a resident of the ACT. The use of crown land for recreation (specifically rock climbing) is a large part of my social life, physical fitness, family activities and bonding and has been a large part of maintaining my mental health.

12. What use/s of Crown land do you value?:  
 Open or green space, Community use, Other

Other: Recreational use, camping (where legal), rock climbing, trail running and bush walking.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:  
 Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Priorities for recreational use specifically rock climbing and camping.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Outcomes should be focused on recreational activities including rock climbing. Rock climbing is a low key activity with minimal environmental impact and strongly improves local regional visitor economy's.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: I feel rock climbing should be included as a priority and be considered fully legal activitt and encouraged as a regional tourism boon and clear support of the local visitor economy. In general, crown land should be held for recreational activities to support physcial activity (good for public health outcomes), provide a mental health boon (nature is amazing for supporting a positive mental state) and encourage community engagement.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: Other

Other: The mission of [Redacted] is to lobby for the permanent environmental protection for the remaining bushland in the catchment of Narrabeen Lagoon.

12. What use/s of Crown land do you value?: Biodiversity  
Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:  
Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections:

Work with Aboriginal communities to realise the potential of their land rights:

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The four priorities do not specifically include “protection or enhancement of biodiversity” which is key to providing ecologically sustainable development for NSW. Amongst the outcomes there are the statements: 1. Support and restore environmental values on Crown land 2. Manage Crown land to build resilience in a changing climate If these outcomes are to be achieved, the statement in the priorities above needs to specify that natural biodiversity is a key component of what is meant by “environmental values”.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Important

Expand regional tourism:

Important

Assist new sustainable energy, resources and infrastructure projects:

Very important

Facilitate investment on Crown land:

Neutral

Prioritise the use of Crown land for green and open space in urban areas:

Important

Use Crown land to expand access to affordable housing:

Support and restore environmental values on Crown land:

Important

Manage Crown land to build resilience in a changing climate:

Very important

Sustain the places where people come together:

Important

Partner with the organisations that serve our communities:

Strengthen and uphold compliance to ensure a fair go:

Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Important

Contribute to the ongoing recognition of native title rights:

Very important

Explore co-management of land to generate mutual benefits:

Very important

Collaborate with Aboriginal groups in each place to improve outcomes:

Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department

At the top of the Strategic Plan, there needs to be a commitment to the NSW Ecologically Sustainable Development principles as devised by The Hon. Justice Brian J Preston. This draft Strategic Plan appears to be geared to economic sustainability rather than ecological sustainability. The Hon. Justice Preston states “In Australia, the adjective “sustainable” is qualified by the

should address in the State Strategic Plan?: word “ecologically” to emphasise the necessary integration of economy and environment.” His 4-page document contains principles that are relevant to this Strategic Plan for Crown Lands. Also needs to cross reference to the newly adopted NSW Greener Spaces Design Guide.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: There is no mention of protect, sustain and restore sensitive native bushland. It must be recognised that there is biodiversity value in natural bushland and protecting it is an important component of Ecologically Sustainable Development.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: The draft Crown Land Strategic Plan needs to be modified to include principles of Ecologically Sustainable Development, more attention to natural biodiversity and cross-references to other relevant documents published by New South Wales.

20. Where did you hear about the State Strategic Plan?: Print media

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am a Crown land manager

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Agree with priority to enable jobs growth and opportunities but the land managers need to be able to achieve this. The current structure is too rigid. eg Crown lands knocked back Earn and Return on Crown Land - this would have met the sustainable communities priority and would have offset the management of the costs however was denied.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Very important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Whilst we strongly agree with native title and aboriginal rights it is inappropriate for the crown to cost shift to Local Government to manage such complex and difficult legal matters which usually require costly legal advice as many local governments do not have the in house expertise. A timely response is required from Crown Land when engaging with local government.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities:	Very important
Simplify licensing for domestic waterfront structures:	Very important
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Funding for Native Title Managers, ongoing training and support and legal advice. Provide tools and resources to volunteer Crown Land Managers should be expanded to all Crown Land Managers not just volunteers. Funding is required to be able to achieve your outcomes and priorities and has been cost shifted to local government.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?  
I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales, Other

Other: Educational Purposes

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Other

Other: RESILIENCE TO CLIMATE CHANGE Crown land can be vital in mitigating the risks of Climate Change where it acts as an indispensable buffer zone against increasing unpredictable and intense weather events often resulting in coastal erosion, flooding, severe bush fires, drought and sea level rise. Undeveloped land displays greater resilience and is better able to protect assets, human life, habitat and species, as opposed to land that is developed for which options are limited - eg abandon, relocate. HABITAT RETENTION Crown land can also act in a similar capacity, creating a buffer between National Parks and the built environment to protect biodiversity. In addition koala habitat, along with other pockets of significant ecological communities, often extends onto Crown land. Following the devastating bush fires of last summer it is more essential than ever that we look to measures that will protect such environmentally significant areas to allow them to flourish.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**JOB**S Whilst employment is fundamental to the wellbeing of all people, I do not believe that it should cost Crown land for this to be achievable.  
**PRESERVATION OF CROWN LAND** Crown land is a finite instrument and therefore preservation of Crown Land for future generations is fundamental. With the population of NSW expected to increase by over 100,000 people each year until 2041 ([planning.nsw.gov.au](http://planning.nsw.gov.au)) the requirement for such space for recreational and well being purposes will also increase. It has been well documented that the natural environment - often synonymous with Crown lands, plays a vital role in achieving good mental health outcomes. **EDUCATION** For example: engaging with young, exploring the bushland that Crown Land provides in its natural state, discovering native fauna and flora, seeing hands on how the natural world is an intricate network of systems - enriching their lives and developing an understanding and appreciation of their natural environment and how interconnected it is and therefore how very vulnerable it can be to human intervention.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Not at all important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

EXPAND REGIONAL TOURISM: Over-tourism can have adverse effects on residents, local communities, the environment, visitors and social well-being. Well documented evidence is available including the mention of Byron Bay in the European Parliament Report by Peeters et al. (2018) and the problems faced by Hyams Beach on the South Coast of NSW. Whilst tourism plays an important role in the regional economy, smaller locations are usually ill-equipped to accommodate large influxes of tourists and day visitations. If not managed with extreme care and responsiveness, the relatively underdeveloped, sensitive coastal pockets that we all enjoy run a very high risk of being 'loved to death' destroying the very reason for the visitation in the first place. Management of visitors remotely of such unique, fragile and often small locations, to larger centers that are more sufficiently resourced for their numbers, will help to preserve the integrity of the location.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Of minor importance

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

SSP - A Vision for Crown Land With decisions based on the utmost consideration for the environment, prompt and respectful consideration of Aboriginal Land Rights and Native Title claims, and the effects of Climate Change and population increases - only then should the use of such land be considered for sale and commercial/industrial purposes and be validated under strict transparency. I commend the NSW State Government for the innovative approach it has taken to reform the Crown Land Act and to bring Crown Land to a community level by vesting it in the hands of local councils, should they have the capacity and wish to do so. Local Government Areas can be well placed to assess the usage and/or importance of Crown Land to their communities, within their various jurisdictions and make decisions appropriately on behalf of such land - always remembering that it is the peoples land. I thank the NSW State Government for this opportunity to make this submission on the State Strategic Plan - A Vision for Crown Land.

20. Where did you hear about the State Strategic Plan?:

Google search

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Neutral

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: The goals regarding Aboriginal land rights should privilege heritage values of the land, not development. New social housing should not be dependant on crown land. Any land with natural and cultural heritage values should become National Parks or reserves. Community uses of common space should be formalised and protected from development.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures:	Not at all important
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Too often simplifying application processes results in shoddy and inappropriate development.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use  
 Other: Mountain Biking Trails

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

- Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral
- Expand green space, sustainable quality of life and climate change resilience: Important
- Strengthen and support evolving community connections: Very important
- Work with Aboriginal communities to realise the potential of their land rights: Of minor importance

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: It should be clearer where recreation and use fit in to the above priorities

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Very important
- Expand regional tourism: Important
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Very important

Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Not at all important
Contribute to the ongoing recognition of native title rights:	Not at all important
Explore co-management of land to generate mutual benefits:	Not at all important
Collaborate with Aboriginal groups in each place to improve outcomes:	Not at all important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	
<b>Please provide your feedback</b>

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: stop getting the public to do the work that govt and public servants are paid to do and also stop getting rid of rangers who look after these areas thats why we have more fires out of control and its all down to the nsw liberals who fired many fr depts and the code of silence to keep public unaware of the corruption of govt giving land to mining or developers or logging

**Other feedback**

REFERENCE - SSP CROWN LAND Submission into Crown land NSW I am making this submission into Crown land in New South Wales because I am strongly in favour of retaining public ownership of state parks, beaches, caravan/ camping grounds, cemeteries, racecourses, bowling clubs, showgrounds, community halls, sporting fields, parks, wharves and ports. I believe that at a time when our state is facing unprecedented development pressures, we cannot afford to lose anymore community facilities and precious green spaces to commercial interests. I have a number of serious concerns about the proposed changes to the Crown Lands Act including: 1. That no evaluation of the social or environmental values of Crown lands were made during the review of the Crown Lands Legislation White Paper although this was required by the Review's terms of reference. 2. Ecologically sustainable development (ESD) is not proposed as an object of the new legislation and current management principles in the Crown Lands Act will be omitted. 3. Under the government's plans, a business-orientated model is proposed that would promote economic growth over good environmental practice. 4. Crown land assessed as having local significance, if transferred to councils, could be sold or its use changed. For example, open space could become a parking lot or road. 5. Carbon sequestration will be promoted without consideration to the effectiveness and environmental impacts of particular types of sequestration. 6. The government's position on issues such as forestry on Crown lands and identification of Crown land as wilderness is unknown. 7. The government still has not made public submissions to the Crown Lands Legislation White Paper. This is in contrast to what occurred in respect to the Planning Review White Paper. I call on you to instigate an immediate moratorium on any Crown and public land being sold or developed until the Upper House inquiry Parliamentary inquiry reports on: (a) the extent of Crown land and the benefits of active use and management of that land to the people of New South Wales; (b) the adequacy of community input and consultation regarding the commercial use and disposal of Crown land; (c) the most appropriate and effective measures for protecting Crown land so that it is preserved and enhanced for future generations; and (d) the extent of Aboriginal Land Claims over Crown land and opportunities to increase Aboriginal involvement in the management of Crown land. Yours Faithfully [REDACTED]

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Take out development and investment options on Crown Land. There is enough privately owned land in this country that is already built on that can be redeveloped and enough Crown Land that has already been developed without ruining any more. Preserve the remainder for our future generations please- in cities I have seen first hand councils tweak statistics to make it look like they have more open space than is recommended for the population but in reality they are short by over 30%. In other areas farmland and bushland is being destroyed at a horrifying rate with a far reaching range of animals

displaced and made endangered including lizards, birds koalas, insects etc. The reckless overdevelopment of our country and our state has to stop and often the Crown Land is the only thing left standing.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: I worry that by "removing red tape" and "simplifying licencing for waterfront structures" you will be paying the way for overdevelopment, particularly on foreshore areas. I think you need to put the following initiatives in place: - make the process and reasons behind the protection of Crown Land easier to understand. - Improve Governance and Accountability

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Overall it looks ok, however I am concerned about the fact that the infrastructure and investment side is clearly being pushed to the detriment of sustainable use of Crown Land - it is first in the order of your plan's segments and does not seem in keeping with the original purpose of Crown Land or with community needs. Have you done any population versus open space analysis? I would suggest that doing so in line with Department of Planning requirements for open space would be a start and on top of this you need to recognise the habitat requirements of our native animals on a population per m2 basis and on a migratory route vs habitat fragmentation basis as Crown Land often forms those fragments. I hope that helps.

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Yes, definitely. Selling off crown land to developers is certainly not a priority. We are already bulldozing an unsustainable amount of native forests for development. Crown land should be protected and actively preserved as open green spaces to support biodiversity and to be enjoyed by future generations.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Reading the draft plan it is quite clear that the main purpose of this strategic plan is to be able to sell off large chunks of crown land to developers. Crown land belongs to the people not the government and should be managed for the people and our future generation. It certainly should not be sold off to developers at any cost. It should be clear by now that climate change is real for whatever reason and bulldozing more of our precious green reserve won't benefit anyone in the long term.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am a member of a Commonwealth or state peak body with operations on Crown land

Other: Using radio Antenna Towers in Crownland

12. What use/s of Crown land do you value?: Community use

Other: Using amateur radio repeaters on crown land

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there The changes should be, that amateur Radio repeaters mounted in crown land area, have to pay money to the government. Amateur radio is an none commercial radio, and many times those repeaters have been in

any new priorities, you would like to suggest?:

use in emergency for the community, all by volunteers amateur radio operators. So I suggest that those repeaters should not be hit by any fee's at all.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Neutral
Expand regional tourism:	Neutral
Assist new sustainable energy, resources and infrastructure projects:	Neutral
Facilitate investment on Crown land:	Neutral
Prioritise the use of Crown land for green and open space in urban areas:	Neutral
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Neutral
Sustain the places where people come together:	Neutral
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Nil

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Other

Other: Source of habitat that is increasingly scarce with the huge increase in land clearing since rule changes in 2017(?)

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: I think that, in light of the recent overwhelming habitat loss, the priority should be to preserve natural habitat, particularly if it could form part of a wildlife corridor, or is close to burnt area. Preserving natural habitat that has survived fires MUST take priority over development.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: As per previous page - it is essential that natural habitat, not only in urban space, be preserved and cared for, NOT developed, particularly if close to areas decimated by fire (caused by human-induced climate change)

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Not at all important
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Please add - more consultation; prioritise preservation of natural habitat; reduce ability of local councils to make decisions on use of crown land - must be referred to state or fed. government.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I am deep concerned, and object to, the priority being development and commercial use of crown land. I believe that in the light of lost environment due to lax clearing laws, climate change, and the recent fires, any native/natural crown land must be preserved for the environment as an entity, and for the nation, rather than developed for the profit of an individual.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Of minor importance

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Not at all important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Allow hunting to be conducted on Crown land by licenced responsible hunters with R licences as the same as current NSW state forrests.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Neutral

Manage Crown land to build resilience in a changing climate: Not at all important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Not at all important

Explore co-management of land to generate mutual benefits: Not at all important

Collaborate with Aboriginal groups in each place to improve outcomes: Not at all important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Scrap all the Aboriginal "land rights" Everyone born in this country is indiginous to the land they were born on. Stop singling out a single minority for special treatment. If equality is what is sort then everyone should be treated the same. If burial sights are sacred to Aboriginals then the same should be treated with all current cemeteries around Australia and none should be repurposed ever. They should be deemed sacred and never to be changed or developed over. We should also all be able to access and utilise NP as hunters and farmers as is with state forrests. We shouldnt have to pay for the "privalige" we pay taxes. Do better with those taxes. Stop handing land over to a specific minority. All citizens should have the right to traverse our country free from limits when it comes to

crown land. If someone wants to restrict it, they should have to pay full freight for it like everyone else.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Very important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Not at all important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Scrap the native title act. Noone born today or in the last 100 years walked on Australian soil before settlement. The land not purchased belongs to every citezen equally and should be treated as such. People cry for equality, however we do not have equality. Our "equality" is the same as the USSR equality where some were "more equal" than others. If the rules are good enough for one section of society then they are good enough for ALL sectors of society.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Open up Crown land for everyone. Stop charging the citizens for the use of THEIR land. Stop preferencing one sector of our society above another. Clear the NPs of dead undergroath so we dont have another Black Summer. Use cattle and machines to do this. Allow farmers to do this on neighboring NP to them. Ignor the Greens party, they will not listen to reason.

20. Where did you hear about the State Strategic Plan?: Social media

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Biodiversity, Other

Other: Access granted for use of crown road lands should never jeopardise the biosecurity of the land, ecosystems and farming produce they fall on.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Not at all important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

A huge priority needs to be that security to the landholder is not compromised. Poor regulations and policing regarding crown road upkeep and general use leaves the land holder open to potential catastrophe when crown road land damage occurs such as erosion and waterways disturbances, biosecurity threats with the potential introduction of disease, pollutants and failure to maintain fences boundaries by leaving gates open. Objections from the landholder for grants of crown road use to others for these reasons should take priority above all else.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: 'Sustainable' is too open ended. There are grave implications by the use of this word. This word needs to be clearly defined. What exactly is 'sustainable' in the eyes of the people who created this document? Commercial opportunities - another slogan that in the most rarest cases successfully aligns with the term 'sustainability'. There should be absolutely no further commercial gain on our already depleted soil.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: There are terms that are too open ended. 'Facilitate investment'... in what way? 'Partner with the organisations that serve our communities'... in what ways? Which ones? Do you mean big business so the government gets kick backs? These both need addressing to be clear and more concise. These ideals should not be a part of the cornerstones of what our state needs, unless they can be clearly defined and not open to a swath of interpretation.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

This 'red tape' commentary has some hidden meaning behind, and there's very little commentary relating to this within the draft plan. If anything, our government should have a more stringent process when applying to do things on Crown land. We see too many times the way in which the NSW government has conducted itself (eg: The environmental debacle that has become the Woronora dam, longwall mine approval), and even with strict guidelines in place, this was somehow still approved. No - there should be no red tape reduced for government entities managing Crown land. Trust would need to be restored for that to happen.

Other: Mountain biking on singletrack

12. What use/s of Crown land do you value?: Open or green space, Community use, Other

Other: Mountain biking

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Targetting crownland for active recreation opportunities such as mountain biking, rock climbing and other adventure sport activities that enable people to get out in the bush in a positive way

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Neutral

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Active recreation should be targeted for Crown Lands. These areas should allow for people to enjoy active recreation in a natural setting. Having people in the bush enjoying active recreation is the best way to encourage sustainability and longevity of our bushland

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: land managers should be engaging with user groups to ensure that user groups are able to access crown land for active recreation. Land managers should also be encouraged to work with and gain understanding of active recreation needs such as mountain bikers

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Crown land is going to be a key resource for active recreation. Crown land should be opened up as much as possible for active recreation. If this occurs and is encouraged with the fit to purpose infrastructure then excellent outcomes will be achieved in Physical health outcomes Mental health outcomes Sustainability and respect for our natural environment Respect for cultural heritage

20. Where did you hear about the State Strategic Plan?: Social media

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales, Other Having to do battle with NSW Holiday Parks Land Manager (Reflections Holiday Parks) over their lack of maintenance and degradation of foreshore parklands, expanding their caravan parks beyond their legal boundaries and continuing to deny foreshore access to the general public.  
 Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy, Other  
 Other: Public access to all foreshores. Public Art.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Of minor importance

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Jobs growth, commercial opportunity and sustainability are being used by Crown Lands to privatise the use of public land. I do not want to see a business attached to every toilet block just so that Crown Lands don't need to clean them! I would like to see as little man made structures as possible on Crown Lands.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Not at all important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: More focus on maintenance and up keep of Crown Lands. Many areas a totally degraded and in need of immediate attentions e.g. Rock walls of river foreshore in Brunswick Heads.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Neutral

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Not at all important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Increased local community engagement, work with communities not against them, which is the case in Brunswick Heads. Stop the practice of managing Crown Lands from a far. It does not work. It creates a situation of out of sight , out of mind. We need more managers on the ground and operating locally whob are held responsible

### **Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: There needs to be more collaberation between all areas of Crown Lands to get the best outcome for local communities; there needs to be a greater focus on maintenance of Crown Land Reserves and most of all Manages should live and work in the areas they manage, not 200km away. I would like to see a focus in this plan of extending and gaining greater public acces to all foreshore areas in NSW with a minium of at least 20m.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

\* Prioritisation of the Aboriginal land transfers is a necessary component of the Draft State Strategic Plan and should be a high priority of the Plan due to the limitations of unresolved some 38,000 ALCs and Native Title Determinations. \* There are 4 LALCs in our LGA which have limited to no resourcing, funding and skills / capabilities. A positive outcome for all LALCs in NSW would be to develop a Business Strategic Plan to be consistent with this priority of the Draft State Strategic Plan. \* LALCs need the resources and tools to identify optimal use or development opportunities for land that has been returned to Aboriginal people via the ALC process or where they are the appointed Crown Land manager or partner with other community groups through Land Use Agreements (ALUAs). \* Co-management of land is supported and needs to be further explored. It would be beneficial for Crown lands to provide examples or templates for where or how this could be implemented. An example of where this could be explored is with Landcare and their affiliated groups. \* It is necessary for any financial return on Crown land is reinvested in infrastructure for broader community use, or utilised to assist LALCs resource their obligations, or for Councils to maintain and improve public open space. \* There needs to be a balance between the Crown Reserves managed by Councils and those managed by Crown Lands with commercial use that provide a return Councils should not be expected to solely manage not for profit community activities at our expense and for little return, with Crown Lands retaining the true commercial enterprises. \* Tourism is a significant contributor to our local government area's economy. Provisions to encourage and optimise tourism opportunities on Crown land are encouraging however, further detail is required to understand how this could be implemented and what additional benefits would be realised. \* Improved management of green space for public use or to ensure undisturbed areas are maintained and regeneration and biodiversity is vital. \* \* Facilitating investment on Crown Land is a positive component, however this is at risk with undetermined Aboriginal Land Claims (ALCs) which in effect sterilises Crown land from partnering opportunities, development/embellishment and investment.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Important
- Expand regional tourism: Important
- Assist new sustainable energy, resources and infrastructure projects: Important
- Facilitate investment on Crown land: Important
- Prioritise the use of Crown land for green and open space in urban areas: Important
- Use Crown land to expand access to affordable housing: Neutral
- Support and restore environmental values on Crown land: Important
- Manage Crown land to build resilience in a changing climate: Important
- Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

\* [REDACTED] supports the development of the State Strategic Plan for Crown Land and would like to see more detail in relation to the delivery of quadruple bottom line approach to the management of Crown Land. \* What role will Councils play as Crown Land Manager in the adopted Strategic Plan? \* There needs to be a clarity of the roles of Crown Lands and Councils as Crown Land Managers. Targets need to be realistic, clearly stated and all need to be adequately resourced to be able to deliver. \* All Crown Land guidelines, templates, standards etc need to be urgently updated and made available on CLM Reserves portal. \* Empowering Aboriginal people to play a central role in delivering this vision is an important aspect and Council supports this. To facilitate this, it is paramount that Crown Lands provide necessary resources to the Local Aboriginal Land Councils (LALC). Crown Lands should consider providing assistance to LALCs and to resource and recommence the Land Negotiation Program to assist in developing communication between all parties and to reduce the long list of undetermined Land Claims. Until claims are determined all parties continue with a large amount of uncertainty and risk.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

\* A realistic approach to the adoption of any standard templates for leases and licences needs to be considered. No two community groups, buildings, reserves etc are alike and although they may have many items in common flexibility is required to tailor the agreements to be relevant to the specific property.

## Other feedback

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

\* Crown Land Portal - requires improvements to provide links to information on Crown Reserves, eg links to the Gazette Notices for the Reserve creations, appointment of Reserve Managers etc. More communication between the Portal administrators and users re enhancements would be beneficial. \* Council is working towards our submission of the classifications and categorisations of the Crown Reserves we manage and also the development of our POMs. Finalisation of the Crown Strategic Plan must have regard to the timing /requirement by Crown Lands for the completion of these tasks by Councils and should include new requirements that will require amendments to the POMs post adoption. \* The increase in obligations to be undertaken by Councils post the implementation of the CLM Act 2016 has been substantial. Councils have accepted these new obligations and made concerted efforts to meet the deadlines and guidelines set by Crown Lands, however Crown Lands have not been able to meet their obligations due to lack of resourcing or lack of decisions at a higher level. \* Any funding by the State to Councils to assist in meeting our obligations would be hugely beneficial.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

The Plan should incorporate an emphasis on biosecurity on Crown land roads, especially when one of these roads cannot be closed and purchased. These roads are a liability for farmers who have them passing through their properties. Farmers currently have no ability to secure their properties, to protect their businesses and animals from biosecurity threats, or environmental damage. Unregulated traffic which can pass over highly erosive undeveloped land and through sensitive waterway habitats, which can do extensive damage to a business enterprise, should not be permissible. Our farmers, as food producers, should be given all the support they need to maximise and protect their enterprises. Currently farmers have no biosecurity rights at all over the Crown land adjacent to their land, which leaves them vulnerable. Where a neighbour has alternate, legal, developed, access to their properties, a Crown road should be made a protected corridor, where trees can be planted and environmental biodiversity supported. It has become more apparent, in these COVID-19 times, of the importance of being able to locally produce a stable food supply. Everything should be done to support farmers' ability to do this. This should be a priority over any secondary need of a neighbour who has alternate legal, usable, developed access; to use and abuse a Crown road with no care for the land or the damage being done. Biosecurity is paramount and, without provision for it, our ability to produce food for the Nation is threatened. Our government has deemed biosecurity important enough to pass the Biosecurity Act over private land. Why does this not also apply to Crown land?

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales, Other

Other: I have had a keen interest and involvement in Crown land for more than 35yrs recognising the natural resources of our Crown lands are of enormous value supporting several industries which significantly contribute to our State's economy along with the their important social and environmental benefits for sustaining liveable communities. Sadly over the last 2 decades I have unraveled much skulduggery and misappropriation of our Crown lands that does not abate.

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Other

Other: The SSP fails to recognise the significant economic values of the natural resources of Crown lands and their contribution to the State's economy.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience:	Very important
Strengthen and support evolving community connections:	Of minor importance
Work with Aboriginal communities to realise the potential of their land rights:	Important
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	The priority for Crown lands should be sustaining Crown lands in public ownership for future generations as the land set aside on behalf of the community for the wide range of public purposes including environmental/heritage protection, recreation/sport, open/community space, access to beaches/waterways etc.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Of minor importance
Expand regional tourism:	Of minor importance
Assist new sustainable energy, resources and infrastructure projects:	Not at all important
Facilitate investment on Crown land:	Not at all important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Of minor importance
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Of minor importance
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department	The structured method restricting proper open comment on the SSP and its lack of transparency creates a significant bias. Thus, the SSP seriously fails its objective, 'Strengthen and uphold compliance to ensure a fair go.' The devil is in the detail of the SSP and raises very grave concerns that require more than a tick the box exercise.

should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: The key enabler for delivery of the SSP is transparency and regard for intergenerational equity, rather than reducing accountability and providing carriage for fast tracking private commercial interests.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

While aspects of the SSP is supported it is most unfortunate the format to comment restricted open comment, and the focus and priority of the SSP is for the commercial development of our Crown lands (privatization) with the scene set in the Introduction pg.5. It is not known if the proposed Crown land developments is to be consistent with Council policies/strategies/LEPs etc. and indeed the government's own policies/strategies/regulations. It appears from the SSP on its adoption, implementation commences with no further consultation, just updates (pg.10). It also appears there has been little regard for the findings of the Auditor-General's findings re the Sale and Lease of Crown land (A-GR) and damning evidence of the Crown Land Inquiry (CLI). It is unknown if the Recommendations of both these processes have been implemented. Specifically A-GR, R1. a) identify leases which - do not comply with Department policy; b) developing a plan to address issues identified: CLI, R9. undertake a stock take of all Crown land; R10. undertake a digitisation project of maps identifying Crown land in NSW; R11. when implementing the stock take of Crown land, must consider an audit of its ecological value. Thus, for transparency the SSP should be put on hold and maps of Crown land released publicly with those Crown lands earmarked for development identified.

20. Where did you hear about the State Strategic Plan?: Crown Lands website

Other: Relevant to the importance of Crown land to communities across NSW as public land for a wide range of public purposes it is of very serious concern the SSP was not publicly notified locally.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I think the plan is good for overall management however it's application for our specific showground is a little hard to define. I think the proposal to upgrade the showground as an emergency area is excellent. The bottom line for a showground in a little rural town is that we continue to struggle financially to maintain the showground, let alone upgrade our facilities to encourage more campers. Despite this I feel that this year we have had the most support from Crown Lands in 2020 than we received in the previous 5 years.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy

Other: Protection of cultural and environmental heritage

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Crown Land should not be forced into the service of jobs and economic growth. We should not sacrifice this valuable public asset for short term economic gain.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Not at all important

Expand regional tourism:

Neutral

Assist new sustainable energy, resources and infrastructure projects:

Neutral

Facilitate investment on Crown land:

Not at all important

Prioritise the use of Crown land for green and open space in urban areas:

Important

Use Crown land to expand access to affordable housing:

Not at all important

Support and restore environmental values on Crown land:

Very important

Manage Crown land to build resilience in a changing climate:

Important

Sustain the places where people come together:

Important

Partner with the organisations that serve our communities:

Not at all important

Strengthen and uphold compliance to ensure a fair go:

Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Very important

Contribute to the ongoing recognition of native title rights:

Very important

Explore co-management of land to generate mutual benefits:

Neutral

Collaborate with Aboriginal groups in each place to improve outcomes:

Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

The survey is a disingenuous form of engagement, which seeks a narrow form of feedback. It seems that the focus is on economic development, when these precious public resources should be protected for future generations for their inherent value. They should not be commodified.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	This survey is appalling. For example, the item relating to "reduce red tape" is very important but not for the reasons the survey implies. Red tape is all that is protecting these valuable public assets from being monetised. It is feedback tools like this one that destroy trust in government and create a climate of cynicism in the community.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

This feedback tool is appalling. The focus of Crown Land Management should be environmental protection, conservation of natural resources and intergenerational sustainability. There is no reference to public consultation in relation to processes around changes to the use or possible sale of Crown Land. There should be an audit of Crown Land BEFORE a plan is developed. The Plan should NOT proceed.

20. Where did you hear about the State Strategic Plan?:

Social media, Correspondence from the department

Name of Activity: State Strategic Plan for Crown Land  
 Our Reference:: SSP Crown Land

**Please provide your details**

1. First name:  
 2. Last name:  
 3. Do you identify as Aboriginal or Torres Strait Islander?: [Redacted]

4. Are you completing this survey as part of an organisation?: No

5. Organisation:  
 6. Postal/street address:  
 7. Suburb:  
 8. State:  
 9. Postcode:  
 10. Email:  
 [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities

Other:

12. What use/s of Crown land do you value?: Open or green space, Aboriginal land rights, Biodiversity, Other

Other: Educational

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are Biodiversity protection essential 9 threatened species have been identified on the Public and private lands and endangered ecological communities

there any new priorities, you would like to suggest?: Climate change resilience is of course essential Mylestom is a village with the Bellinger River on one side and the Pacific Ocean on the other it is only 5.64 m above sea level and has been flood affected and potentially could be inundated by the sea

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Not at all important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Of minor importance

Strengthen and uphold compliance to ensure a fair go: Not at all important

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Absolute protection of the threatened Australia animals and plants that live on these lands Protection of the integrity that exists in this small coastal village Educate future generations to care for country and respect and preserve the uniqueness of the country and its plants and animals

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Preservation of this coastal village and its natural environment Don't try to make all coastal communities the same

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Coastal environment must be protected now and into the future essential that we protect and maintain habitat where it still exists for Australia's unique biodiversity

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:  
I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other: I am a citizen who values the environment and believes that government has a responsibility on behalf of our greater community to ensure that water and land resources are protected from damage and/or exploitation.

12. What use/s of Crown land do you value?:  
Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Jobs growth, commercial opportunities, sustainable economic progress in regional and rural NSW are clearly priorities of any government, BUT SHOULD NOT BE PRIORITIES FOR CROWN LAND. Crown Lands should not be a 'get out of jail card' or another political distraction/diversion from governments who are finding it increasingly difficult to manage an unbalanced capitalist based economy which favours corporate over community interests. We are the custodians Not the owners of the land and as such should be working with nature to protect the natural environment and biodiversity .

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: We are the custodians of the land and owe an obligation to the next generation to care for and protect the environment, the forests, the water, ecosystems, natural biodiversity. Too much damage, too many extinctions have already taken place on our watch. The Plan for Crown Lands should focus on protection of the environment - all other options should sit underneath this Priority and if options for use of crown land do not meet new and stronger environmental protection criteria they should not go ahead. The environment should be protected at all costs, it is not

only our home - it is the home of all living creatures and future generations.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Education of the public about the importance of protecting our Crown Lands - no single use plastic, no littering etc Education and promotion of native species of flora and fauna, biodiversity, the value of forests, oceans etc. Build community awareness about the critical importance of caring for 'our' environment - our individual and collective responsibility to respect and protect the natural world.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: What would native species of flora and fauna say if they could contribute to this Plan ? Protect green space, marine environments, forests and national parks. Protect waterways. Work in balance and harmony with nature. Humans should respect the planet, its cycles and rhythms, ALL of its inhabitants and and not rush to dominate and exploit the natural world.

Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Nsw state forest provide the best recreational activities the systems and processes they use such as allowing recreational activities such as hiking, being dog friendly, horse riding and hunting should extend or be allowed in all crown land.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: NSW government need to follow the state forest model and flip it feral animal and vermin control into an economic resource. Responsible and ethical hunters will pay money to perform the activities we waste tax papers money on. Tighten the rules charge them money and show no sympathy for poaching. This would be a huge revenue generator for NSW.

Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Very important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Assist new sustainable energy, resources and infrastructure projects - I'm not keen on the resources and infrastructure being lumped in with sustainable energy. Resources is very vague and could indicate mining for instance which needs to decrease not increase.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Of minor importance

Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

In many other regions and countries, crown land is one of the best sources of space for recreation that brings people outdoors without the sensitivity of national parks. Sports like mountain biking are important to current and future generations and I think use of crown land for outdoor sports should be a bigger priority.

20. Where did you hear about the State Strategic Plan?:

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy, Other

Other: Some sort of housing to help combated homelessness. Similar to what VIC has done and has placed tiny homes onto vacant land to help with housing shortages for singles. The tiny homes could whether be rented but the tenant or rent to buy, but they sign off to say they're not buying the land just the accomodation. To which can be moved to another agreed location in the event of emergency, rezoning and so forth. They could be employed to work on the grounds to which they reside for a reduced repayment within the asset. If not they pay from centerlink or look for another form of work to make repayments.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable Important

economic progress in regional and rural NSW.:

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: That better links between indigenous youth and linking them into the land with learning and developing greater ties to culture. Camps can be facilitated on the grounds, and tradition plants/ to be grown within a native food garden and spread out within pockets over the land. Provide links to reduce Indigenous individuals falling into the prison system, by having them linked into carrying out and spending time with elders to encourage healing and detox when required. Depending on the crime committed

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Very important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Red tape needs to be reduced, but needs to ensure that it is not sold out to the cheapest bid or one that will cost more long term due to cutting corners. Projects should go to Australian owned companies, and should need to demonstrate that 85 percent of the staff working on the project are Australian citizens. 15-20% need to identify as Aboriginal/ Torres Strait Islander and proof needs to be shown. Employment opportunities and training will be provided to local communities within the region the work is taking place. Ex amount to be school leavers within the last 3years, ex amount are staff who are on centerlink and either have the skill or wish to obtain the skill and the remainder are local businesses within the region depending on the size of the project.

11. Which of the following options best indicates your current or past use I am involved with a community or volunteer group that uses or maintains or interest in Crown land in New South Wales? Crown land facilities, I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Other

Other:

Recreational use. Predominantly mountain biking as there are close to no formal facilities or trails in Sydney for a recreational population/participation of well over 100,000. During covid sales of mountain bikes have increased exponentially and there are no new facilities to provide. Crown land is perfect for Mtb trails as they open spaces and still protect the greenspace

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience:	Very important
Strengthen and support evolving community connections:	Very important
Work with Aboriginal communities to realise the potential of their land rights:	Important
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	Mountain biking provides huge economic benefit to communities. Both social, Heath and economic Look at examples in New Zealand and Tasmania. Economic benefits of mtb trails on public land can create many jobs and add \$M to local communities Trails can be built in sustainable ways - there is long-standing evidence of this. Ref: IMBA and australian examples- stromlo in ACT, Derby in Tasmania and others such as Tathra Trails open up crown land in a manner that reduces dumping, vandalism and fire. Mountain bikers protect and preserve the greenspaces

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Very important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Very important
Facilitate investment on Crown land:	Very important
Prioritise the use of Crown land for green and open space in urban areas:	Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Neutral
Do you believe that any changes should be made to these outcomes or	Mountain biking is of huge benefit to Regionaytourism Refer Derby and Maydena in Tasmania But Sydney also needs to allow mountain biking on

would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

crown land reserves. Given almost nil recreational facilities for the very large mtb communities, crown land in Belrose NSW, Oxford Falls NSW etc should be open to communities to develop mtb trails Currently Northern Beaches council manages the land by locking mountain bikers out which allows for illegal dumping and drug users to vandalise the bush. When mtb trails are built riders use the space and discourage illegal dumping and drug users from burning, tipping on and ruining the bush with fire and rubbish Community use of Crown land should be encouraged rather than discouraged as is Northern Beaches Council current attitude.

- Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Establishment of formally recognised mountain bike trails would promote healthy lifestyles across various demographics and has the potential to generate revenue/business. There are numerous examples around Australia and overseas where thriving localised mountain bike trail networks have breathed life into communities and created economies. Some notable examples are Derby, Tasmania and Rotorua, New Zealand. These and other similar examples achieve all of this in a sustainable manner thanks to the engagement of volunteers who have a vested interest in the asset that is the trail network.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing:

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Please do not 'sell out' assets in the same manner as previous infrastructure/utilities. Government ownership is absolutely essential.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Mountain biking is very much a growing sport/industry which has many social and economic benefits. It should be better recognised and supported by adequate approved facilities. The scope for such facilities on Crown Land is enormous.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: Other

Other: I am a Farmer with an EP - Enclosure Permit - and pay annual rental. The EP is for a future road, but is not possible as both sides (adjoining properties) are closed. It is a small amount of land (about 2 Hectares) and a small proportion of my property.

12. What use/s of Crown land do you value?: Jobs and economic growth, Other

Other: I grow trees - afforestation - and graze cattle.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Neutral

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Try and help farmers more with less strain, paperwork and issues - especially where these Crown Lands are better managed by the Land Owner. Small allotments should be handed to surrounding land owners. A smaller charge should be allowed, not full land value amounts, which are largely unrealistic.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Important

Standardise leases and licensing for common activities:

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Neutral

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Reduce Government costs by reducing management costs and by reducing small, unusable areas/lands. There are too many EP's of little value to the State and cost much in management for an uneconomic return to the State.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: The plan, as it is, shows good vision. The reality is the final approved plan.

20. Where did you hear about the State Strategic Plan?: Crown Lands website, Ad in local paper, Correspondence from the department, Other

Other: All media.

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Wildlife habitat should be the absolute priority. There are so many endangered species now. Let's stop the extinctions and learn to live in balance with nature and other species. We are the one species which is not threatened. It is alarming to learn that 51% of Australian land is used for agriculture and we produce 3 times the amount of food we need. Focus on restoring the land and give employment to indigenous people to manage it.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I have a lease to use Crown land, I use Crown land for my business, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Very important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Neutral

Manage Crown land to build resilience in a changing climate: Neutral

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Collaboration with Aboriginal groups in each place to improve outcomes needs to be developed within a time frame to reach certain outcomes by a certain time otherwise things just drag on unresolved. Staff change roles within the Department (or lack the necessary acumen), Land Council members change and its like starting all over again nothing gets resolved no time frame no accountability for the impact delays have on lease holders. ie ILUA's must be negotiated in a timely manner and set proforma documents with set trigger dates to help expedite this process will benefit Native title Elders, Land Council members, the Department, Lease holders and legal representatives.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

There should be a clear simple process to reaffirm or extinguish Native Title on areas of Crown Land where structures or long established land use can be identified by a lease holder. Aging, duplicated and under utilized coastal infrastructure, land and water currently under lease or licence need review. These areas and facilities could be utilized by a more diverse mix of users ie recreation, marina, marine businesses and tourism. along with economic benefits for the State and local communities.

20. Where did you hear about the State Strategic Plan?:

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Very important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Neutral
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Neutral
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Very important
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Neutral

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: As a quickly growing sport which great for fitness and well being I would like to see crown land opened up to mountain biking groups so that they can safely build single direction track.

Other:

12. What use/s of Crown land do you value?: Community use, Jobs and economic growth, Other

Other: Recreational use

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Ensuring Crown Land remains accessible for recreational use for all community members and doesn't become commercialised or restricted due to other priorities.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing:

Support and restore environmental values on Crown land: Neutral

Manage Crown land to build resilience in a changing climate: Neutral

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Ensure land available for recreation is easily identified and accessible for all community members.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

This is very important - "Make more of our information available and transparent"!! Currently it is very hard to get basic information on Crown Land to decipher if specific land parcels are freely accessible for recreational activities; require permission/s from a Land Manager or Trust; or requires permission from a tenure/lease/permit holder. Crown Lands are not easily identifiable as being unmanaged , managed by a land manager or trust or under tenure. Getting this information has recently been made harder (more red tape) by requiring an approved application for status to be sent which may have fees attached if status information is provided. There should be a free, publicly available system for recreational users of Crown Land to help facilitate community use of available lands.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Crown Land permits, licences and leases should also be more transparent. Crown Land that has been leased, licenced or under permit for a specific use should be audit-able against that usage and subject to relinquishment if not used for the specified use. Crown Land lessors or permit/licence holders should be more accountable for usage and refusal to allow other usage of Crown Land parcels such as for otherwise lawful recreation.

20. Where did you hear about the State Strategic Plan?:

Google search, Crown Lands website

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

It is VERY IMPORTANT that Aboriginals (if they want to be singled out) and all the people in Australia understand who has built this great nation. It's EVERYONE that has had a good go in life. We don't need all these little blocks taken up by people just because they can, the areas will most likely become untidy and abandoned and encourage undesirable people into our currently safe areas. Most of these blocks have been managed by the neighbouring land holders and need to be maintained. They should be first offered to the neighbour at the current land selling prices, especially in the case where the neighbour has paid a lease and looked after the land as their own. Well, after that I'm not quite sure, but a standard needs to be kept for the maintenance and beautification of our land scape at local area standards. Maybe the government could use them to create their own carbon credits to help off set some of their costs.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Very important
- Expand regional tourism: Very important
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Very important
- Prioritise the use of Crown land for green and open space in urban areas: Very important
- Use Crown land to expand access to affordable housing: Very important
- Support and restore environmental values on Crown land: Very important

- Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important
- Contribute to the ongoing recognition of native title rights: Not at all important
- Explore co-management of land to generate mutual benefits: Very important
- Collaborate with Aboriginal groups in each place to improve outcomes: Very important
- Do you believe that any changes should be made to these outcomes or would you like to suggest any: I don't understand after 200 odd years why there is still all this difference between everyone. There is a growing population of Australians that will never contribute, live the way they do, and will always expect every thing for

other outcomes the department should address in the State Strategic Plan?:

nothing, and this is being encouraged. Their 3rd and 4th generation now. The government schools have a very high population of children that don't care about anything and the teachers can not do a thing about it. The rest of Australians have an instinct to strive, earn and continue to build this great nation we have. We need to stop giving things away, its becoming expected. There is nothing wrong with sharing, that's what we do. My suggested outcome would be that the land be offered to the neighbour. A lot of these blocks cut existing holdings and would create great frustration in communities. In the case where it doesn't affect the neighbour, and is a liveable size house block, put it for sale with a building entitlement, might encourage families into rural areas and boost schools communities etc. , park areas , or just areas for native regeneration. Depends on the scale and shape of the block. Power generation, solar wind?

**Please provide your feedback**

Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:

Very important

Simplify licensing for domestic waterfront structures:

Very important

Reduce red tape for government entities managing Crown land:

Very important

Provide tools and resources to volunteer Crown land managers:

Very important

Build understanding of native title:

Very important

Engage and support a new generation of Crown land managers:

Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

It is VERY IMPORTANT that the NATIVE TITLE understand that Yes the Aboriginals were here first, and they're all descendants now. We don't have a choice its EVOLUTION, Australians are managing this great land so we can all live freely, build, strive, and have a place to call home. Its VERY IMPORTANT that the new generation of land managers need to uphold the standards that the land is currently in or do works for the better. We don't want our areas littered and neglected.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Just DONT give the crown lands away. We've said sorry, pay our respects at nearly every gathering, their fore we all need to get along with life !

Other:

12. What use/s of Crown land do you value?: Community use, Biodiversity, Other

Other:

I'd love to see Crown land regulated and opened for hunting, much like State Forests. More often are we hearing in the news that deer are encroaching regional and suburban areas or are continuing to be a pest management nightmare for our primary producers. A growing community of people who look to source their own meat are now turning to hunting and providing for their families and can participate in the reduction of numbers whilst relying less on farmed meat. A reduction of game species will increase the biodiversity of our lands and provide revenue for State Government.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Having a sustainable quality of life is very important to me and to see it identified as a priority is great to see. For me, sustainability is the education of people to use what is around us as effectively as possible, that can include, fishing in our rivers, foraging for wild foods like mushrooms, berries and greens and hunting for meat. This lifestyle can draw people outdoors to discover environments they never knew existed. On a bigger picture scale, this quality of life can be reflected in health outcomes (physical and mental) as well as respect for the planet, understanding of our Aboriginal custodians and economic growth for rural towns.

### **Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

### **16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: My understanding of Crown land may be limited but I don't believe it should be accessed to encourage development to housing. How can we be working to building resilience in a changing climate if, at the same time, we are developing housing on these lands?

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Very important

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Two points: Should we be simplifying licencing for domestic waterfront structures when there are currently (21/07/20) houses on the Central Coast being washed into the ocean due to erosion? Secondly, we should be encouraging and supporting a new generation of land users, not just managers. There's plenty to explore in the bush and while some Crown lands may be corridors of unusable land, there is likely plenty to be turned into a productive and educational experience for all Australians.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: People are often hesitant to speak about hunting. Two years ago, I was in the same boat. I met some people who took care to educate me about safe firearm use, how to hunt and how to get more out of our native bush, while benefiting the environments and being able to provide for my family in a way that gave me control over the process. I've now gone on to provide this education to others and introduced them to a way of sustainability they didn't think was possible. The State Forest hunting system has been working well for a long time now. It would not be hard to implement the same system for other areas within the state where hunting can be conducted safely and responsibly. For areas where hunting can't be implemented a focus should be on keeping these places open for the enjoyment of people, not developed for housing or more infrastructure.

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are The priorities need to be clearer on 'support and restore environmental values on Crown land' and 'build resilience in a changing climate' and

there any new priorities, you would like to suggest?:

detail to what extent they will protect our native remnant environment against the other areas of priority listed in the Strategic Plan. To what extent will growth, commercial opportunities and economic progress compromise or take precedence over the environmental priorities. Areas to be reserved based on an environmental and ecological conservation basis need to be clearly identified and listed so as to ensure they are protected from development and Commercial opportunity. There is insufficient information on the basis for assessment of these conservation areas and a lack of detail pertaining to the opportunity to preserve and enhance biodiversity, including threatened species.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Important
- Expand regional tourism: Important
- Assist new sustainable energy, resources and infrastructure projects: Neutral
- Facilitate investment on Crown land: Neutral
- Prioritise the use of Crown land for green and open space in urban areas: Very important
- Use Crown land to expand access to affordable housing: Not at all important
- Support and restore environmental values on Crown land: Very important
- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Neutral
- Strengthen and uphold compliance to ensure a fair go: Neutral
- Make Aboriginal land transfers a priority – and see them as an opportunity: Very important
- Contribute to the ongoing recognition of native title rights: Very important
- Explore co-management of land to generate mutual benefits: Neutral
- Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

There should be a clearer defining of what comprises "Green Space", more emphasis is required for Green Space, including Green corridors, open space, to preserve and enhance biodiversity including threatened species. Priority Conservation areas need to be identified and flagged for protection from development. A direct statement connecting job opportunities to restoring environmental values and climate change resilience. More detail is required regarding travelling stock reserves and

an emphasis on sustainable use to preserve the threatened species they support.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Not at all important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Protecting what remains of the environment is paramount, red tape and indepth analysis are crucial in preserving this capital asset, Reducing red tape leads inevitably to a loss of irreplaceable asset.

that any  
changes should  
be made to  
these enabling  
initiatives, or  
are there any  
other enabling  
initiatives you  
would like to  
suggest?:

Crown land managers are often disconnected from the lands they are managing. This does not allow for effective managing yet is important to address.

### Other feedback

19. Please  
provide any  
other  
comments  
about the draft  
State Strategic  
Plan for Crown  
land.:

I struggle to come to terms with anything you have presented here as the reality of the actions of Crown Lands speaks louder than words. I and others before me have been trying to address Crown land over a beach ecosystem that has been systematically destroyed by 4WD's unruly behaviour and dogs for years. The only response from Crown land has been, well, nothing. Complete inaction and neglect. This is even knowing that these beaches have recognised: • Critically endangered species with a SoS site management plan identifying this beach as the key habitat • Under the coastal management policy identified as vulnerable dunes and coastal habitat with risk of flooding community in extreme weather events. And perhaps the most significant realisation is, how could Crown Lands allow 4WDs and dogs on a protected beach with no one managing it continue even when they were informed. The ensuing chaos and destruction that has followed year after year leading to collapse of an entire beaches ecosystems and now the repeated traumatic and dangerous situations for the communities living here. Very important

Contribute to the ongoing recognition of native title rights:

Very important

Explore co-management of land to generate mutual benefits:

Collaborate with Aboriginal groups in each place to improve outcomes:

Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

While I strongly agree that more affordable housing for Aboriginal communities should be prioritised I don't believe this should be done via development of Crown Lands that have biological conservation values. Similarly I don't think renewable energy production should come at the cost of native woodlands and grasslands.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Crown land in regional areas in NSW should be used as a first priority to conserve our natural environments and maintain biodiversity. Working with Aboriginal communities and other community use comes second to this. Crown land in the city, should be prioritised for community cultural use, not for commercial opportunity. eg The Bondi Pavilion

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I think these priorities are too general. Generally, I do not want crown land used for any development projects, not even needed important projects like affordable housing. I do not want it used for commercial operations. We need to keep our crown land for bio diversity. Not for forest logging. I think a great deal of our crown land should be passed to the national parks, with expanded Aboriginal ranger programs. Co-management might work with community organisations/ /groups eg Wreck Bay Aboriginal community at Jervis Bay, or

National Parks. But not with big commercial interests looking to strip us of primary resources such as logging or mining companies .

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Of minor importance

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: I do not want changes that will make it easier for the government to go-ahead commercial/ mining operations or change land and building use to commercial operations. While i support the idea of supporting sustainable Aboriginal crown land management, I do not support providing resources or tools to every organisation. These questions are too general and of little use.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: In all areas the plans should be about land and cultural conservation and community use. The plan should be to maintain biodiversity, and tree planting. We should use crown land to protect Indigenous flora and fauna and eradicate pests such as deer and weeds in these areas both for recreation and tourism opportunities. But not for mining or logging at all. -to regenerate native plant life where needed I think the government should invest in and work with Aboriginal people to realise the potential of their land rights, and provide work opportunities in sustainable land management and cultural tourism etc. In the city, crown land should be used for community greening, open green space, native corridors, native gardens and community cultural spaces.

20. Where did you hear about the State Strategic Plan?: Other

Other: A friend told me about it and sent me the link. I am involved in a couple of groups that work on crown land and I've not heard a word. I do not feel the communication of this process is adequate.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

I read down past the rubbish and I find the part about what the plan is trying to accomplish and realise at no stage are you that interested in the major population. Yes if someone wants to say something, they can but naturally the majority of the population are busy working and growing a family, providing money for you to do your job and hope you do it with them in mind. So you will not hear from the majority, but you will hear from minority groups that have more time on their hands as they are also provided money by the majority and it's easy to overlook who actually should have more say. 1 I see a 'quadruple bottom line approach' an unnecessary catch phrase meant to sound awesome only. It's a sales pitch to justify spending money on employing another person into a government job that is unnecessary. 2. I see 'Empower aboriginal people to play a central role', this means that a smaller than 4% minority group will have the central role. That's a bit racist don't you think. We are all Australian here, everyone should be equal. Ive also found some of these land councils to be susceptible to idealistic things put to them by white political peddlers. For example, the walking up of, Ayers Rock. All the aboriginal elders ive talked with, (Ive spent 17 years working in the NT, Kakadu, Arnhem land, Kimberly) don't care what a person that is not of their culture does around their cultural things. Its harmless to them as they are not of that religion. Only

people within their culture need to respect it. That's why stopping all people walking up Uluru doesn't seem to come from the elders, as I know it wouldn't have worried them, but it would come from Parks and Wildlife which 'help' run the show and it's a government body that needs to implement rules for their own ideals. 3. I see 'collaborate with the government and stake holders' I hope that local councils don't get to collaborate on this as in order to make money, councils make hoops (barriers) which cost people to jump through. The more hoops, the more money, the more government employees, which only job is to make more hoops, and so on. Crown land should be kept for the poorer families, the ones that don't get to go to National Parks because it's too expensive or they have their dog with them, or they are red necks and want to get away from the rest of the crowds (also appreciated by the crowds). You will not hear from them as they are busy and hope you will do the right thing by them as they are paying your wage. By far the biggest impact on mother earth is the human population, we need to keep the crown land owned by the crown and not sold or given to the Aboriginal people. Ive been across Australia twice, I've been along the Gibb River Road, Simpson Dessert and Cape York to name a few and all my travelling avoided National Parks as we travelled with a dog. Also National Parks are where all the City folk go to see an idealistic representation, it's not natural. Leave the Crown land for the people that already use it now, it is used a lot for recreation, you just don't know it.

12. What use/s of Crown land do you value?:

Open or green space, Other

Other:

preservation of nature without idealistic veiws of government bodys.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Not at all important

Expand green space, sustainable quality of life and climate change resilience:

Engage and support a new generation of Crown land managers:	Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

I refer to page 32 of the paragraph titled Support the marine and boating industries. It states “Crown land can also be used to provide access to launching and mooring facilities, helping to preserve the way of life that is so much a part of our coastal Australian culture. These activities also generate significant health benefits. Spending time on the water has been shown to make a positive contribution to people’s quality of life by reducing stress and improving mental health”. I note that the State Strategic Plan for Crown Lands references domestic waterfront licence for domestic structures and aims to simplify the process which I fully support. Some months ago we (my wife and I) applied to Crown Lands for Land Owners consent for a boatshed to store our small watercraft as we are at retirement age and now realised we needed to improve access for launching our small watercraft and kayaks. We first successfully obtained the approval of NSW Maritime (RMS) and NSW Fisheries (DPI) for the proposed structure which has no impact on the environment and no impact on public access. Unfortunately it was refused by Crown Lands. The rationale for Crown Lands refusal is noted in the document titled Domestic Waterfront Licences — Guidelines which states that a Boatshed is defined as “A building or other structure used for the storage and routine maintenance of a boat of boats and which is associated with a private residence”. However, waterfront structures not acceptable on Crown land includes: • Boatsheds, except in locations where the only access to private land is by water and the only practical location for the boatshed is on Crown Land, subject to practical public access along the foreshore not being restricted. The proposed structure satisfies the second half of the guideline in that the only practical location for the boatshed is on Crown Land and public access is not restricted. The interface between our property and the waterway is a vertical eight meter rock wall on the Mean High Water Mark (MHWM), the property boundary. The consent authority for our area is Sutherland Shire Council and we have confirmation that a boatshed below MHWM does comply with all the Sutherland Shire Council’s local planning requirements including the Local Environmental Plan (SLEP 2015) and the Development Control Plan (DCP 2015) for the waterway zone W2 where a boatshed on Crown Land or below Mean High Water Mark is permissible. I believe that the Crown Lands Domestic Waterfront Licences — Guidelines as detailed above for boatsheds, is seemingly restraining, onerous and not aligned with that of NSW Maritime (RMS), NSW Fisheries (DPI) and Sutherland Shire Council’s planning controls. Furthermore, I searched for domestic properties which may have met that description of “locations where the only access to private land is by water” and discovered in the Sydney Metropolitan Region included properties such as Scotland and Dangar

Island in the Pittwater waterway area. On closer inspection it did not reveal that any of these properties could satisfy the second half of the guidelines which states “only practical location for the boatshed is on Crown Land” because the land/water interface is primarily level. Page 5 of the Domestic Waterfront Licences — Guidelines does however describe Boatsheds below MHWM as part of the several "Discretionary" structures which also includes swimming pools and residence. By discretionary, it implies it's optional, possible or even conceivable. Hence my frustration. I hope that in the State Strategic Plan for Crown Lands can consider relaxing constricting Domestic Waterfront Licences Guidelines and use discretionary controls where the impacts could be determined as minor. After all, and if I can quote parts of the Plan, Crown lands strongly believe the aquatic activities generate significant health benefits. Improved access, (in this case housing small watercraft in a boatshed), promotes spending time on the water which has been shown to make a positive contribution to people’s quality of life by reducing stress and improving mental health. I hope this can also be applied to waterfront property owners.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Of minor importance

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:

Important

Work with Aboriginal communities to realise the potential of their land rights:

Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Economic priorities should not be more important than environmental priorities.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Too much land is not available for the public to use in a recreational manner. The aims of Crown land management should be to maintain it to be used by all, not locked away from public use.

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	<p>I'm a retired scientist and have climbed in Australia for almost 50 years. I work with the Sydney Rockclimbing club and The Australian Climbers Association NSW Inc ("ACANSW") to guarantee fair access for rock climbers; and to promote sustainable climbing on public and private lands. Many climbing areas are on Crown Land, it is a low impact activity and is often "under the radar". This may lead to it not being explicitly included in updated management plans or acknowledged, resulting loss of climbing access is the land is converted to freehold. Additionally, only a small amount of visible rock is of sufficient quality to allow climbing. Thus losing any accessible climbing areas are a major concern. Modern climbing equipment makes climbing safe, similar to walking activities. Climbing tourism is recognised worldwide as a significant regional drawcard. Please legislate to allow climbing access where possible.</p>

Name of Activity: State Strategic Plan for Crown Land  
 Our Reference:: SSP Crown Land

**Please provide your details**

1. First name:  
 2. Last name:  
 3. Do you identify as Aboriginal or Torres Strait Islander?:

4. Are you completing this survey as part of an organisation?: Yes

5. Organisation:  
 6. Postal/street address:  
 7. Suburb:  
 8. State:  
 9. Postcode:  
 10. Email:

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Governance - robust process, transparency, and long term vision

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Good Governance is very important - and under-discussed in the Plan. Correct representation, consistent process and transparency. Particular care needs to be paid where "re-purposing" will take place, making it very difficult to rectify if necessary The possibility for periodic ongoing review and accountability must be "built in"

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures:	Not at all important
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Not aligned with "reducing red tape" as this is too frequently a pretext to shortcut without the correct checks and balances. If the process is taking too long, first look to resource Review Machinery adequately

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Thanks for the opportunity to make a submission. Understand this is part of an evolution of the use of Crown land." Please note our inputs to the Crown Land SEPP \*\* 1) A key concern is that there must be continuing good governance and transparency. (4.2.3) \*\* Independent and transparent governance structures are crucial and are not much addressed in the Paper. \*\* We note the mention of fast-tracking and proposed reduced permissions to accelerate past "Red Tape." - just like in carpentry there is the adage of "think twice, cut once". We've had 150 years of Crown Land Management through some tumultuous times, so a responsible government cannot unduly rush decisions now. Re-purposing is often not practically reversible. We can sell our Crown Lands only once, ever. \*\* The Real Estate industry is notorious for getting the attention of special interests and coveted opportunities on Crown Land will be no exception. If there is any urgency at all, we recommend to further resource the review structure, rather than to emasculate it. The recent Opal Towers saga is a clear case in point of inadequate oversight right here in NSW, and the NSW Government has publicly conceded that improvement in the oversight and certification system is needed. \*\* Although it can be argued that identifying opportunities to create jobs and economic opportunities for our regional communities, such as the provision of housing and employment, support growing populations in regional towns, and take some of the pressure off populated urban areas, we believe that Crown Land should not necessarily be the first place to go for. There are much better options available, such as reuse of existing abandoned manufacturing industry land. We argue that in NSW, a State where the Government strongly supports Free Enterprise, lands required to attract investment and create jobs in export-orientated manufacturing, energy generation, and new and emerging industries should be acquired from private or commercial owners, and not be handed over through a quick sale of Crown Lands. \*\* A great example of what not to do is what happened to 100+ years of rail assets and infrastructure in the UK with the infamous Beeching Report. Road transport was ascendant at the time, and a lot of Rail infrastructure was rapidly dismantled and liquidated in a very short time period without enough governance and review. Those corridors would still be massively valuable to the public good if they had been retained. We should avoid our descendants saying "what were they thinking of?" as has been so often said of this Beeching Report. An Australian equivalent is the demise of the once extensive Tram system in the 1960s, which in hindsight would have been managed differently. \*\* With regard to land under Council Control – we believe that is an

appropriate level of governance and to confirm that this would continue. Councils have detailed and balanced LEPs in place which regulate the appropriate use of lands, and these can be including Crown Lands. \*\* Policy should also look to liaise with and take proposals from local Community Organisations. \*\* 2) Maintaining Urban Green Space (3.3.2) \*\* Green Space in Australian Urban Areas makes for a great differentiator of the Amenity for Residents here in Australia, compared to “concrete jungle” Cities abroad. Crown Land contributes positively to that, and must continue to do so. In further developing the Crown Lands policy, there needs to be co-ordination with the forthcoming “Greener Spaces” Paper - the two Papers have a significant overlap in scope. The (draft) Green Spaces Design Guide has a strong focus on open space for recreation, urban tree canopy, and bushland and waterways. Many, if not most, of Crown Land in our areas are exactly such spaces. Any sale of these Crown Lands for value-capturing purposes would be diametrically against the above focus and undo the efforts envisioned in the Green Spaces Paper. \*\* Where an urban neighbourhood already has a certain minimum of Green Space/size of Community Facility – we should treat that as a bonus reinforcing the particular amenity of that Suburb. The concern is that there might be re-purposing of the “extra” above a target minimum green or social space. To the livability and sustainability of local communities, there is a huge value in having access to Green Space in general and undeveloped Crown Land in particular. This must not be reduced without good reason to those communities. \*\* The Planning and Decision process needs to be independent and accountable including to Local Communities. Any decision on the change of use to Crown Lands in or near those communities, must have a clear and convincing cost/benefit ratio to these communities. As such, these communities need to have a strong involvement in the decision-making process, and we argue that the best way to do so is through the local Councils \*\*

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I have a licence to use Crown land, I use Crown land for my business

Other:

12. What use/s of Crown land do you value?: Other

Other: Essential access to rural farming properties

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

To ensure that existing licence and leasing arrangement for access rights, and in our case sole access, to private freehold property should be preserved and not withdrawn without sufficient consultation as is happening with our property in Wellington. There are situations where crown land access was originally granted and put in place to provide legal access to subdivisions of rural/farming land. These rights of access in our case are the sole points of access to over 600ha of rural property divided into 6 titles, without which there would be no provision for legal access to any of these land titles .

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Neutral

Use Crown land to expand access to affordable housing: Very important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Ensure that existing rights of access to private land be maintained such that current licences will continue and not be extinguished by selling to adjoining land holders who then disallow legal access to adjoining landholders. These licence arrangement were intended to provide legal access to original subdivisions. When no legal access alternative is provided these crown access roads should not be sold off and in so doing jeopardise the sole legal access to existing freehold/leasehold title holders. One example would be that land involved with a property situated at [REDACTED]

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: The departmental staff and managers to have a site awareness of the what each particular crown land site involves, who and what is involved and the impact of that arrangement particularly with respect to license arrangements.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Other:

12. What use/s of Crown land do you value?: Aboriginal land rights, Biodiversity, Renewable energy, Other

Other:

Aboriginal Land Management- Aboriginal people can occupy, develop and practice aboriginal culture on an area approved for land management. This will allow aboriginal people to have complete ownership of what they decide to do within this area. Giving the people the chance of autonomy and independence to educate people of aboriginal heritage and cultures.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Of minor importance

Strengthen and support evolving community connections:	Important
Work with Aboriginal communities to realise the potential of their land rights:	Very important
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	Expanding of green space reduces the biodiversity of natural Australian flora and fauna within the community. Targets should be linked toward creating animal corridors and expanding national parks for public use. Further development of bush regeneration/management practices is required and should be a major component of the government's climate resilience strategy over the next 10 years

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Very important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Very important
Facilitate investment on Crown land:	Important
Prioritise the use of Crown land for green and open space in urban areas:	Of minor importance
Use Crown land to expand access to affordable housing:	Important

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Jobs and economic growth

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections:	Very important
Work with Aboriginal communities to realise the potential of their land rights:	Of minor importance
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	
<b>Please provide your feedback</b>	
15. These are the best outcomes for Crown land over the next 10 years.:	Strongly disagree
<b>16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.</b>	
Support innovative and sustainable regional industries:	Not at all important
Expand regional tourism:	
Assist new sustainable energy, resources and infrastructure projects:	Not at all important
Facilitate investment on Crown land:	Not at all important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Neutral
Make Aboriginal land transfers a priority – and see them as an opportunity:	Of minor importance
Contribute to the ongoing recognition of native title rights:	Of minor importance
Explore co-management of land to generate mutual benefits:	
Collaborate with Aboriginal groups in each place to improve outcomes:	Of minor importance
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	
<b>Please provide your feedback</b>	
17. These are the best enablers to support delivery of the plan.:	Neutral
<b>18. Please rate each of the enablers from 'Very important' to 'Not at all important'.</b>	
Make more of our information available and transparent:	Very important

Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Of minor importance
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**
