

# How to search for public roads advertisements

July 2015

Welcome. You may now search online for advertisements and supporting maps for proposed road closures that are within the 28 day submission period. A text only version of this notice will also be advertised in a local newspaper.

There are some limitations to this search function; it does not include local Council road closures or advertisements that have passed the 28 day close of submissions date.

## How to search

1. Click 'Submit' and you will see all current roads notices live within the 28 day submission period.
2. The table below will 'show all', with the notice listing based on which will submission will expire first, meaning the oldest will appear at the top of the table.
3. You are able to filter your search by hitting the triangle shaped toggle keys on the columns on the table or by typing a keyword in to the text box (such as Walgett) and hitting submit.
4. The road description shows you details of the road at a glance to help you identify the road you are interested. Click or tap on the linked road and more detail will appear.

Your search returned 65 result(s).
