

Respecting the Community Vision

The Brunswick Heads community has a strong identity and a strong vision “Brunswick Heads. Simple Pleasures” and this vision will be respected throughout the project.

The Consultants

Ardille Payne & Partners, a firm of Engineers, Town Planners and Surveyors based on the Far North Coast has been engaged for the Project.

Project Commencement

The project commenced in March 2015 with meeting of key stakeholders, who included:

- holders of leases and licences in the Boat Harbour
- representatives of harbour users
- community organisations currently operating in the boat harbour
- NSW Marine Rescue
- the Chamber of Commerce and Tourism Group
- Surf Life Saving and Fishing Clubs
- representatives of Byron Shire Council and a number of NSW Government agencies including the Office of Environment and Heritage, Marine Parks Authority, NSW Roads and Maritime Services, NSW Fire and Rescue, and NSW Water Police.

The consultants have subsequently undertaken site inspections and talked to community members individually, actively gathering information for site analysis and development of options. The project is progressing more slowly than initially planned due to work commitments of Crown lands staff and the Consultants, but remains a priority of the Department and its consultants with the help of the community.

Next steps

Consultants are currently preparing reports on their investigations and will present those reports to the next Stakeholder meeting to be held later in 2015.
