Introduction / Overview

In NSW, the Department of Industry – Lands (the Department) has ownership, control and management of Crown land below the mean high water mark and manages this land for the benefit of the people of NSW. Any occupation or use of Crown land requires a licence from the Department.

Development of domestic waterfront facilities can be a large investment requiring ongoing commitment and responsibility. Such a facility can also greatly enhance your use and enjoyment of NSW waterways. The Department supports the ongoing use of domestic waterfront facilities for responsible recreational and water related purposes however this occupation of Crown land below the mean high water mark should not be viewed as an inherent right of any foreshore land owner.

The following terms and conditions along with your licence execution and schedules 1, 2 and 3 combine to make up your licence for your domestic waterfront facility.

Please read the following standard terms and conditions in conjunction with the associated schedules carefully and ensure that you understand your rights and responsibilities as a licence holder.

Definitions are available at the end of the licence.
