FUTURE PLAN FOR SCOTTS HEAD HOLIDAY PARK ADOPTED

NSW Minister for Natural Resources, Lands and Water Kevin Humphries said today the plan of management for Scotts Head Holiday Park has been formally adopted after comprehensive consultation with Nambucca Shire Council and the local community.

“The plan provides a blueprint for improvements at Scotts Head Holiday Park over the next decade planned by park manager, North Coast Holiday Parks, part of the NSW Crown Holiday Parks Trust,” Mr Humphries said.

“Under the plan, it is intended to capitalise on the benefits of the holiday park’s outstanding setting that fronts on to Forster Beach.

“Park facilities and recreational options will also be improved with a strong emphasis on environmentally sustainable design and energy efficiency.

“Among the many improvements to the park include removal of older buildings, upgraded caravan and camping sites, new cabins, a new camp kitchen and landscaping.

“North Coast Holiday Parks has worked closely with Nambucca Shire Council on the plan which will see Scotts Head Holiday Park to set the standard for North Coast visitors for many years to come.

“The plan of management is available on the Crown Lands web site at www.crownland.nsw.gov.au .”
