# NELSON BAY

CONNECTING PEOPLE, PLACES AND ACTIVITIES IN A COASTAL ICON

- The Department of Lands and Port Stephens Council are working together towards a revitalisation of the Nelson Bay foreshore in response to the challenge of increasing demands on the existing infrastructure.
- The aim is to revitalise the Nelson Bay foreshore precinct as a safe, easily accessible

and dynamic drawcard for the local community and visitors alike, while also improving the connectivity between the foreshore and the CBD.

- The development of a vision document was the first step in the process and was prepared in consultation with key stakeholders to guide the revitalisation process.

- 46 submissions were received in response to the vision and these responses will now guide the development of a long-term sustainable draft Plan of Management for further community consultation.
